

PRO IP Mini-Domes 2MP, 3MP, 5MP

Superior Performance with

Premium Video Quality

• 2MP, 3MP, 5MP resolutions, triple

- streaming
- VideoEdge® TrickleStor technology for edge-based failover redundancy

Features That Make a Difference:

- True WDR on 2MP/3MP models
- 2MP models include UltraVision low-light performance tuning
- Face detection identifies human faces while ignoring other moving objects
- Blur detection triggers an alarm when the image is being blurred or is out of focus
- Quick, easy installation and configuration
- One-touch auto focus and motorized zoom
- Multiple motorized lens options
- Reduced storage cost with H.264 and bandwidth management analytics
- Up to five individual programmable regions
 of interest
- 2MP models feature Corridor Mode for vertical field of view orientation to view hallways or store aisles
- Gaming mode on 2MP/3MP/5MP models
- IP66 and IK10 rated for weather and vandal-resistance
- Superior low-light performance
- Video intelligence analytics

Smart Design

Illustra Pro IP Mini-Domes – available in 2MP, 3MP, and 5MP models - provide crisp and clear high-definition video at full frame rates. Whether in bright sun, near darkness or blackout conditions, you can easily capture important details for forensic review.

Featuring advanced video intelligence analytics to distribute the load between the camera and VMS, the Pro Mini-Domes provide real time event alarms that allow for quick reaction to incidents and behaviors as they occur.

All of the Mini-Domes offer superior low light performance, while the 2MP Mini-Dome features UltraVision low light performance tuning to maintain surveillance quality color video at light levels below 1 lux.

Use the Pixel Counter function to find the size of an object and determine if the recognition requirement is being met. When a region of interest box is drawn, the GUI will show pixel width and height outside of the actual image.

Fast Uptime

Installation is simple with no additional cost or hardware. The cameras include various integrated mounting options. On indoor cameras, a plenum cap is included as well as mounting clips for recessed installation.

Configuration is simplified using the most common web browsers to access the browser-based camera interface for

feature control including one-touch focus and motorized zoom. Illustra Connect, a powerful desktop remote management and configuration software tool, makes set up and commissioning of multiple cameras even easier.

Seamless Failover Redundancy

The new VideoEdge TrickleStor feature on the Illustra Pro Mini-Domes allows video recording to continue on the edge when an outage occurs. If communications between the NVR and cameras are interrupted or stop, the camera automatically detects the anomaly and begins recording video to its SD card. With TrickleStor, once the connections are restored, the recorded video is then transferred back to the NVR's hard drive for seamless viewing later.

Versatile Lens Options

The Pro Mini-Domes include multiple lens options. The 9-22mm telephoto lens model provides exceptional performance and higher zoom capability, allowing the camera to capture important features of subjects and areas from farther away.

The Theia SL183A 1.8-3mm wide angle lens delivers a constant number of pixels to every area of the image and improves the accuracy of video analytics operating near the edges of the scene. Theia's patented distortion-free lens technology avoids the barrel distortion of other lenses and enables ultra-clear views while covering up to 113° field of view.
